Delivery Rates & Fees

Each delivery includes a delivery fee & fuel surcharge that is calculated on round trip delivery mileage obtained from Google Maps. Start and Ending locations is our sales facility 16946 IH 35 North, Schertz Texas. Delivery route is at Mortellaro's discretion.

The Delivery Rate will remain the same throughout the year of 2016 assuming delivery site remains constant.
The Fuel Surcharge is also based on round trip mileage, however it is adjusted monthly to match the current price of diesel.

Due to the delivery fee & fuel surcharge being fixed on delivery mileage, neither are adjusted for items rejected at time of delivery. It will remain constant if your order meets minimum requirements or if it fills the entire trailer. Delivery Rate & Fuel Surcharge are NOT subject to sales volume discounts. However, they will be discounted if the delivery is shared with another customers' order.

The delivery fee & fuel surcharges will be estimated on any quote or order acknowledgment provided, however it will be finalized 24 hours before delivery due to the uncertainty of total orders on delivery truck and routes chosen.
